FIGHTING OVER NOMINATIONS

Warring Factions in Ranks of the G. O. P. in Desperate Conflict Now

The contest for supremacy in the ranks of the Republican party is getting warmer each day. From present indications it looks like a Britt–Nelson affair all along the line. While the shrievalty nomination will doubtless be the real bone of contention, yet the fight has spread to the other offices. Considerable parrying is being done by both sides on the governorship, as that fight warms up thruout the State. Both factions wish to pick the winner, but that's a hard thing to do thus early.

The Fairbanks–Barnard crowd feel in duty bound to support Pardee, as the governor threw Van Dyke and the "Push" down two years ago and appointed Gus Fairbanks supervisor. The "Push" feel like lining up with the Railroad for J. O. Hayes, the millionaire aspirant for Pardee's place, just to get even, and incidentally to be on the winning side, for anyone with an ounce of brains ought to know that Herrin is going to name the next Republican candidate for governor. Then again both factions feel like double crossing "Bolo" Pardee, because when they both got together last spring for Judge Mannon for the appellate judgeship, the governor then fell down on them and named Judge Buckles instead. So the county delegation will go to the next State convention demanding the nomination of Judge Mannon for the district court of appeals. Pardee might not like this but he will be kept so busy attending to his own "knitting" that he won't be able to interfere, as he usually does.

The shrievalty contest, however, has overshadowed everything else. The old Press Gang is known as the Fairbanks–Barnard faction, because Pennington and Van Dusen won't train with Orville White, of the Press. Van Dusen says White is a traitor and wants to ride with both sides, but can't do it as the horses are going in opposite directions. And Pennington says White is a thief—that he robbed him out of $2000 when he was in partnership with him on the Press. To add to the general hilarity and peace of mind of the erudite editor of the checkered sheet, Hale McCowen, who is supposed to lean toward McNab, refuses to drill with anyone that has anything to do with White; for four years ago White & Pennington of the Press charged the county $1900 for printing the ballots, and White charged $1100 last year—and White got the dough. Both sides are yelling to White to stand in. Fairbanks and Barnard have given the paper much patronage, yet White has not mentioned Fairbanks' name in connection with the sheriff's office. The Push say: "White, you said you would desert the gang and come to us; now boom 'em up for Handy." But the poor little fellow runs from first one side to the other and cringes and shivers around like a Yukon baby in cold water. Then he rushes back to his office, takes out his ledger and as his eyes fall upon the $1900 and $1100 ballot jobs, and the $2000 that Pennington didn't get—he soliloquizes: "I'm a printer, I'm a thief; therefore all printers are thieves."

He would give up all of that $3000 if he could only pick the winner.

Both factions depend upon the Press to "boom" their candidate for sheriff this week; a failure to be either a man or mouse will leave the editor of the Press a man without a fragment of a party.

SUPERVISORS PROCEEDINGS

Repairs to Eel River Bridge Ordered—Plans Accepted for Jack Peters Bridge

Sam Orr and H. McKenzie ordered to proceed to repair Eel river bridge at a salary of $8 per day each, repairs to consist of putting in new timbers for batter posts and top chords, batter posts to be 18x18, top chords 14x16, all of Mendocino fir. To cut and rethread and reweld all rods when necessary to bring bridge to level bearing and proper adjustment. Cost not to exceed $4500. Bills to be presented to board in usual way with O. K. of Supervisor Fairbanks for allowance.

It appearing to the board that the county buildings are heavily insured, some for more than original cost, the district attorney was instructed to examine into the legality of all the policies held by the county on the various buildings and report to the board at the October meeting.

Report of J. C. Lane and D. H. Lawson on the Jack Peters bridge accepted and approved. Plans of A. W. Biggers for the construction of a wooden Howe Truss Deck bridge adopted and clerk ordered to advertise in DISPATCH-DEMOCRAT and the Fort Bragg Advocate for bids to construct said bridge.

Bill of Jamison Bros. continued until next meeting of the board.

All applications for insurance on county buildings rejected.

COUNTY FATHERS FIX THE TAX RATE

The board of supervisors met in special session last Monday and by a unanimous vote fixed the tax rate for the fiscal year as follows:

State Fund	.49
County General	.32
Salary	.8
Indigent	.045
Judicial	.05
Bond	.045
County School	.32
Mendocino High School	.07
Ukiah High School	.08
General Road	.40
Total rate per $100	$2.00

In the incorporated cities of Ukiah, Fort Bragg, Willits, Potter Valley, where there is no levy for road purposes, the rate is $1.60 per $100.

The following additional rates were levied in the following school districts for special purposes: Albion 30c, Fort Bragg 20c, Caspar 60c, Brush Creek 70c, Redwood 10c, Counts 30c, Hopland Union 25c, Low Gap 30c, Oriental 25c, Ukiah 10c, Round Valley U. H. S. 50c, Pt. Arena U. H. S. 20c, Fort Bragg U. H. S. 50c, Willits 20c, Willits U. H. S. 40c, Willits Town 35c.

The rate last year was as follows: State .535, Co. General .33, Salary .16, Indigent .05, Judicial .07, Bond .05, School .30, Mendocino High School .05, Ukiah High School .055, Road .40.

By a comparison it will be observed that the County School Fund is raised .02, Mendocino High School .02, Ukiah High School .025, and the Salary .02, while the State Fund is lowered .045, County General .01, Indigent .005, Judicial .02, Bond .005.

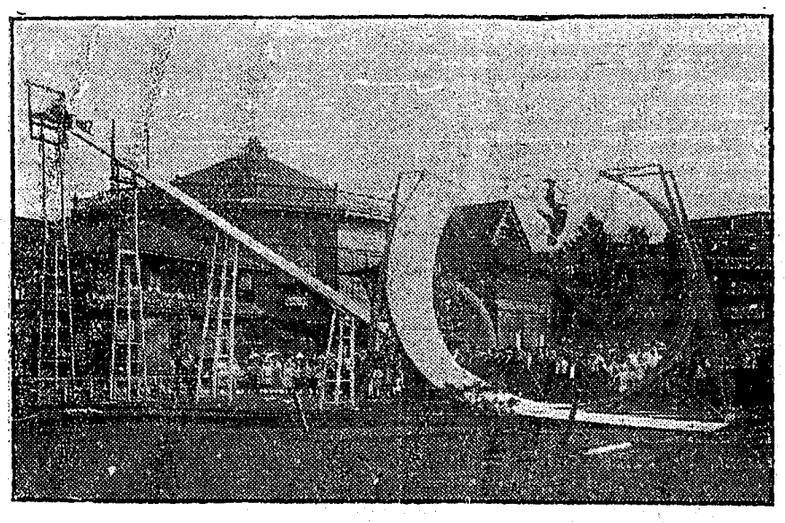
The assessed valuation of the county this year is $12,377,783, an increase over last year of something like $400,000.

Last year there was a balance in the funds at the beginning of the fiscal year of about $14,500, which was spent before the beginning of the present fiscal year.

The two per cent rate this year raises about $8000 more than last year, which amount deducted from last year's surplus leaves about $6000 less money for county purposes than was spent last year.

It will be observed that the increased rate of .065 is all for school purposes. The last legislature abolished primary school districts, making them all grammar grade and raised the apportionment of these districts from $400 each to $550 each. There are 43 school districts in this county thus increased $150. School teachers thruout the county will receive better salaries in the future.

DAREDEVIL DIAVOLO'S NEW SPIRAL LOOP THE LOOP



Ukiah is to witness the performance of one of the most wonderful bicycle feats ever devised and executed by mankind. This assertion is made by Charles A. Doyle, who is here preparing for the engagement of the Nat Reiss Southern Carnival Company, which aggregation of shows opens here Fair week, Oct. 2 to 7th, on the main streets. Mr. Doyle has much to say of the numerons new feature acts which Mr. Reiss has engaged for this season, and which are already with the show, but asserts that Diavolo's new combination spiral loop the loop, which will open with Mr. Reiss' company in this city, will prove to be the peer of them all.

This new loop is what is known as a spiral loop. That is, instead of having the death trap open in order for the rider to exit, the portion of the run-way from which he emerges from the loop is to the side of that portion on which he enters the loop, as seen in the accompanying illustration. It will be seen that in the loop used last year Diavolo had only to keep his wheel straight to circle the loop, but in the one to be used this season he must steer a spiral course, thus making the ride a much more difficult one.

Pure nerve and a wonderful control of his wheel are necessary to accomplish the act, but Diavolo does it and will make the thrilling ride twice each day during the week's carnival here, at 3:30 and 9:30 p. m.

Prominent Visitors

Judge Joseph Hughes, of Sacramento, J. M. Hughes, a brother of the Judge, and J. R. Hughes, father of the Judge, of Missouri, and Sheriff Reese, of Sacramento, visited in town last Tuesday. Judge White and Editor Sanford entertained the visitors by driving them over to the State hospital and up to the fish hatchery. The distinguished visitors were more than pleased with Ukiah and vicinity and hope to be able to stay longer upon their return. They left in the afternoon for Willits and will go from there into the wilds of Humboldt and Trinity on a hunting expedition.

Will Give Concert

Miss Eleanor Joseph, formerly of this city, who has been in Europe several years completing her musical education, is to appear in Ukiah in a concert to be given by the Ladies' Aid Society of the M. E. Church South the first week in November. Miss Joseph has been under the best instructors of Europe, among whom was the teacher of Calve, the famous singer. Her appearance here will undoubtedly be a rare musical treat for our people. Further particulars will appear later.

Bark Rate Changed

The matter of wharf and chute rates over the Pollard Lumber company's chute and wharf at Westport was taken up this week by the board of supervisors. The rate fixed last month for bark was $2.00 per cord. This rate was cut to $1.25 per cord on Tuesday. The other rates remain the same as fixed last month.

ANOTHER BIG JOB FOR SEYMOUR

District Attorney A. M. Seymour has determined to find out how much money was used at the last session of the Legislature to defeat the Ralston anti-prize fight bill in the Assembly, who paid the money and who received it.

As soon as the Emmons case, now on trial, is finished, Seymour will lay the rumors of boodle before the grand jury and will have a number of prize-fight promoters appear and tell what they know about the defeat of the bill.

Among those already subpenaed is William Nolan, manager for "Battling" Nelson, who recently defeated "Jimmie" Britt. It was feared Nolan would leave the State, and Seymour sent County Detective Philip O'Neil to San Francisco to serve him with a summons to appear before the grand jury when wanted.

Subpenas for others interested in promoting fisticuffs have been issued, but Seymour declines to state now who they are.

Seymour has information that some of the assemblymen received from $200 to $300 for voting against the bill, while others were paid, it is said, to absent themselves from roll-call.

The scandal was given publicity thru a quarrel between Nolan and Harry Corbett, of San Francisco, growing out of the Britt-Nelson fight. It developed that Nolan, according to charges made by Corbett, had given a bogus check for $500 to secure part of Nelson's forfeit money, and it also was made clear that the $10,000 side bet between Britt and Nelson was all "stage money." In other words, no actual bet was made.

Nolan, on the other hand, claimed that Corbett once tried to secure $1000 from him, representing that that sum was to go to a fund to defeat legislation hostile to prize-fighting.

J. V. Ray, of the O. K. feed yard, is quite ill and his oldest son is just recovering from a serious sick spell.

LATEST HOP INDICATIONS

The Bears are Trying to Control the Market and Keep Prices Down

The condition of the hop market remains unchanged. The bears are busy sending out false reports as to the probable output in the various hop districts. It is stated that if the growers will remain firm until about the first of November good prices will be secured.

Hop-picking is finished now and the campers have been moving back to town. The quality is good but the quantity is coming down light. There will be between two-thirds and three-fourths of a crop in the valley this year. From reliable statistics at hand it appears that the world's output this year will exceed last year's crop by about 40 per cent. If this be true the price will be about 40 per cent less or 15 cents for this year's crop.

The statistics are from the Waterville Hop Reporter and are as follows:

	Estimates 1905	1904
Germany	530,000 cwt	445, 00 cwt
Austria	343,000 "	200,000 "
Russia	60,000 "	40,000 "
Belgium	100,000 "	90,000 "
France	60,000 "	50,000 "
England	550,000 "	282,000 "
Australia	15,000 "	15,000 "
America	480,000 "	400,000 "
World's crop	2,138,000 cwt	1,522,000 cwt

Roeder--Gibson

Fred M. Roeder and Miss Sadie E. Gibson were married in the First Baptist Church, San Francisco, on Sept. 14th, by the Rev. George C. Adams. The many friends of this popular young couple had been expecting the happy event for some time. Just at the time they were not expecting it, however, the marriage was solemnized. Miss Sadie was in San Francisco with Mrs. M. L. Gibson, and Fred quietly slipped down to the city and surprised his friends next day by sending them a notice of the event. Supervisor Gibson got down to the Hamilton Hotel in time to throw rice all over them, however.

The young people left the next day for San Jose where they spent their honeymoon. The groom is a prosperous farmer and also has interests in the furniture store and undertaking parlors of Hutchison & Roeder. The bride was one of Mendocino county's popular school teachers and had taught successfully in the local grammar school for a number of terms. She is a sister of Supervisor M. L. Gibson. They will be "at home" in Ukiah after November 1st. THE DISPATCH joins in extending congratulations.

Returned Home

Miss Genevieve Skinner, of St. Louis, who has been the guest of her relatives, W. J. Hildreth and family, since last May, left Sunday for San Francisco. After visiting there for a few days she will resume her journey to her home in St. Louis. Miss Skinner made many friends while here and was delighted with Ukiah. She was accompanied as far as the city by Miss Irene Hildreth who will visit friends there and in San Jose for a few weeks.

Baptist Association

The annual meeting of the Clear Lake Baptist Association will be held at the Baptist church in Ukiah beginning Thursday next at 10 o'clock and continuing over Sunday. A large number from abroad have signified their intention of being present, among them several of the leading ministers from Oakland. All meetings are open to the public and a cordial invitation is extended to all.

GOOD GAME OF BASEBALL

Ukiah Defeats Hopland in a Close Game by a Score of Five to Four

The enthusiastic baseball fans had an opportunity to see a good game of ball last Suuday when Ukiah and Hopland crossed bats on the local diamond. There was the largest crowd present of the season. All of the seats in the grand stand were taken. Many ladies came out to witness the game and they enjoyed the playing, too. Ukiah and Hopland always put up a good game of ball. They are all personally friendly with the Ukiah boys and the game goes along smoothly.

The game was full of good plays and had the Hopland boys played an errorless game they would have been victorious. The features of the game were the two batteries, the batting of Dooley and Duff, the playing of Belvail at short, and K. Babcock's nice double in the fifth. Gray and Hughes, the two young accessions, fielded in great shape.

The story of the game is told below:

WERE OPPOSED TO W. J. BRYAN

A New York dispatch to the Associated press on Sept. 15th, relative to legislative investigation of insurance companies was as follows:

"On the stand this afternoon in the insurance investigation George W. Perkins produced a check for $48,000 drawn by the New York Life Insurance company, December 30, 1904, payable to J. P. Morgan & Co. Mr. Perkins testified that this check was a contribution to the national Republican committee and was promised to Cornelius N. Bliss, treasurer of the committee. Mr. Perkins said the same thing was done in 1896 and 1900. The reason of the contributions, he said, was that the company feared its assets would be endangered in case of Democratic success."

It will be thus seen that the money belonging to widows and orphans has been used by corporations to defeat the Democratic candidates for the Presidency. There never was a tomb strong enough to imprison a righteous cause, and Bryan will yet be President.

ANIMAL ARCHITECTS.

Many Birds, Insects and Fishes Are Clever Builders.

Many birds, insects and certain fishes are clever architects and builders and have mastered some of the rudiments of masonry, and at least one bird is a very clever stonemason. The last is called by the Spaniards the "pedrero," or stonemason. In Great Britain it is known as the wheatear. It usually builds in a deep crevice in a cliff, but often it chooses a low excavation or cave and sets to work. It uses no mortar, although some other birds can mix mortar to any degree of hardness. It first collects a number of stones and places them together as a foundation for the future nest. Next it builds a dry stone wall in front of the place the nest is to occupy. This is often a solid barrier, in which the stones are piled in such a way as to make it almost as thick as it is long. The barrier of stones in front of one nest examined by a writer on the subject was nine inches long, nine inches thick and two and a half inches high. In this barrier there were no fewer than 282 stones. In the foundation of the nest were 76 more, making 348 in all, of which the total weight was four and a half pounds, the largest stone weighing two ounces. Having thus made the foundation and wall of stone, it builds inside the latter a comfortable nest, the upholstering of which is in no way deficient in finish.

Swallows and house martins build by sticking together pellets of prepared road mud. Most of the material is obtained from the drying puddles on the high roads. If not mixed with anything else the tendency of these pellets would be to crumble when dry. But the swallow tribe are supplied with a mucous secretion which enables them to gum the particles together. The swallows' nests from which the Chinese "birds' nest soup" is made are constructed of this mucous matter only. An Indian swallow, which builds little boat shaped nests against the trunks of lofty trees, practically makes them of dried saliva.

Among the birds of the western hemisphere the best mason is a potter as well. This is the oven bird of the pampas in South America. It is called the "casara," or house builder, by the Spaniards. The nest is made of mud and bits of straw, practically the same as the material used for most buildings in Mexico. The walls are very thick, and there is a partition wall inside, reaching so high as to form an antechamber.—Chicago News.

Deceiving the Natives.

The British Medical Journal tells the following story: According to Sir John Malcolm, a well known Scotch surgeon, on the introduction of vaccine inoculation into India, the practice met with great opposition from the natives. In order to overcome their prejudices Mr. Ellis of Madras, who was well versed in Sanskrit literature, composed a Sanskrit poem on vaccination in that language. The poem was inscribed on old paper and was said to have been just discovered. The object of the pious fraud was that the impression of vaccination's antiquity might help to reconcile the minds of Brahmans to the use of a prophylactic drawn from their sacred cow.

An Art Connoisseur.

Madam goes with her maid to purchase a still life picture for her dining room. She selects at the picture dealer's a painting representing a bouquet of flowers, with a pie cut into and a halfpenny roll. She paid 500 francs for the lot.

"Madam," whispered the bonne, "you have made a bad bargain, let me tell you. I saw a picture like that sold for 400 francs."

"And was it as good as this one?"

"Of course it was. There was a lot more pie!"—Moniteur Oriental.

How the News Spread.

Patience—What do you think?

Patrice—I'm sure I don't know.

"Why, that Huggins girl was married nearly a year ago!"

"I never knew it!"

"No, nor I either until today."

"How did you find it out?"

"Why, I saw an announcement of her divorce in the papers!"—Yonkers Statesman.

Democratic Opportunity

Mr. Bryan has announced thru the columns of his paper, The Commoner, that the principal cause of Democratic defeat this year was that the men who secured control of the party organization at St. Louis sounded a retreat when a charge should have been ordered all along the line. He insists that conditions demand radical action, and that the people want something definite upon which they can rely. The Commoner, he announces, will carry on a campaign of education, advocating tariff reform, the overthrow of private monopolies, labor legislation, municipal ownership of public utilities, public ownership of railroads and telegraph systems, an income tax, the election of federal judges by the people, the election of United States senators by popular vote, direct legislation, and the selection of postmasters by the people whom they are to serve.

It will be necessary to regain control of the party organization. To do this the friends of reform thruout the entire country must work together. A Democratic paper of national scope offers the best means for carrying on this work, and the Commoner occupies this field. The campaign of education and organization which Mr. Bryan announces will be carried on thru the Commoner regularly so as to keep in touch with the progress the reform forces are making, and to fortify himself with facts and arguments to convince his Republican neighbor that the Democratic party offers the surest relief from class legislation and trust domination.

The low rate which Mr. Bryan has quoted on his paper enables us to send out The Commoner and THE DISPATCH both one year for $3.25. Get your neighbors to join you in circulating Democratic literature, and the election returns in 1908 will not call for apologies or explanations. tf

NEWSY NOTES FROM WILLITS

WILLITS, Sept. 20.—J. O. Coleman, formerly manager of Hotel Willits, has gone to Los Angeles, where he intends to locate permanently.

Peter Gustafsen, who was clerk at Hotel Willits for a long time, has accepted the position of manager of the Northwestern Redwood company's saloon at the mill.

T. B. Johnson, after spending several months in Amador and Placer counties, has returned to his old home in Willits.

T. J. Crowley came down from Laytonville last week in pursuit of a colored gentleman who had stolen a horse. The negro sold the horse and saddle to Henry Bowen for $15. Bowen gave up the horse to the owner and is looking for the darkey.

Fireman Russell was surprised the other morning when wiping engine 30. The engine went out of the back door of the round house and off the track. It required considerable work to get the engine back on the track.

Mattean Korrea was killed in the woods last Thursday by being crushed under a rolling log. The log escaped from a donkey and struck the unfortunate man before he could get out of its path.

Robt. Dryden was painfully injured last Friday by a horse. He was putting some liniment on the horse when the animal pressed Dryden's hand to the wall, grinding off the flesh.

H. H. Beard, of Laytonville, was unfortunate enough to get his two thumbs caught in the coils of a riata on the horn of his saddle. One of the thumbs had to be amputated.

Judge Kenworthy has recovered sufficiently from his sick spell to be in his office and attend to business.

Zeke Babcock stabbed Tobe Mitchell in the arm with a pocket knife one night last week.

Marion Cushing, of Laytonville, has sold out his blacksmith shop and will go to ranching near Cummings.

Editor Pennington visited the county seat last week.

Editor Nugent has been out on a hunting trip. He says he got the limit.

P. P. McPeak was called to the county seat last Friday on business. He is erecting a nice residence on Valley street.

LIKE FINDING MONEY.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr King's New Discovery for Consumption, Coughs and Colds." Greatest sale of any cough or lung medicine in the world. At J. R. Mathews' Pharmacy; 50c and $1.00; guaranteed. Trial bottle free.

Elk Creek News

SALSIG, Sept. 12, 1905.—It is cloudy and looks like rain now. We also had three heavy frosts last month which was something unusual considering the time of year.

We have a very large crop of huckleberries this year; some are as large as blue jay's eggs.

Billie Ryan is now in the woods doing some figuring for the company.

A son was born to Mr. and Mrs. Toney Silva. Another suglar for the big skidder.

A daughter was born to Mr. and Mrs. Sam McCause, and Sam don't smile much, as he wanted a son. Cheer up, Sam, as there is a great day coming.

Johnny Munroe passed through Switchville Sunday en route to Dogtown. He expects to run for mayor of Dogtown this fall.

George Munroe was kicked by a mule last week but is getting along nicely at the present time. So is the Maud.

Albert Williams, donkey engineer of Hilo station, was on the streets of Switchville Sunday. It is come or break with Albert when Harry says go ahead.

Tony Fayel, engineer of the big skidder of Hilo station, was in Switchville Sunday on a fishing trip. He caught and landed the biggest water dog ever seen in these diggings. HOBO.

NORTHERN MENDOCINO

COVELO, Sept. 17.—The attention of the justice's court was occupied all of one day last week in determining the ownership of a horse. Four years ago a colt was foaled by H. S. Lovell's mare and it was turned out on the reservation shortly after it was weaned. Lovell neglected to brand it, so the Falez boys put their brand on it and sold the animal to Wm. Swearinger. Mr. Lovell again got possession of the animal and Swearinger brot suit to settle the ownership. The jury decided unanimously in favor of Lovell.

A. G. Hunter and Mrs. Mary Newton were united in marriage on Admission Day by Judge Cummins and given a splendid serenade that evening by many friends.

The Dale brothers have located claims on the Merritt ranch. These claims are said to be very desirable.

Frank Updegraff's dwelling and store house was destroyed by fire last Monday. The fire caught from a defective flue. The loss is about $1500, no insurance. Many valuable relics were destroyed. Frank will bring his family to town and will rebuild in the spring.

Frank Russell died last Thursday morning at the age of 33 years. He was a victim of consumption. He leaves a wife and two small children to mourn his loss.

CHAMBERLAIN'S COUGH REMEDY AIDS NATURE.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, aids expectoration, opens the secretions, and aids nature in restoring the system to a healthy condition. Sold by J. R. Mathews' Pharmacy.

Notice to Bidders

I will receive sealed bids for the Bar, Pool-selling, Sporting, Restaurant, Score-card and Confectionery privileges at the Fair Grounds during race week, commencing October 3rd, and ending October 7th, at my office, in Ukiah, up to Saturday, September 23d, 1905, at 8 o'clock P. M., at which hour the same will be opened. Right reserved to reject any and all bids. Ten per cent of the amount must accompany each bid.

F. C. ALBERTSON, Secretary.

MIDDLE COAST HAPPENINGS

MENDOCINO, September 19.—There seems to be great activity along the coast now and laboring men of all kinds are in great demand in the various camps.

C. A. Norberry came down from Hardy last week to take another step in Masonry. Charley is the architect and builder for the C. A. Hooper company. He is now a benedict, having quietly taken unto himself a wife.

Walter Carrick, the electrician for the Mendocino Electric company, has resigned his position and gone elsewhere to seek employment.

It is proposed to increase the size of Melburne school district by adding territory from Bigriver, Comptche and Spring Grove districts. A new school house is to be erected at a more central point for the accommodation of the entire district.

Ernest Osborn and Bud Arnold, of Comptche, killed a large female bear recently. The bear came very nearly getting the best of the conflict.

The annual convention of the Young Peoples Christian Unions of the coast was held at Albion last week. It was said to have been the best convention yet held.

Martin Myers, who has been teaming for Wm. Burke, was severely injured last week by having a load of railroad ties fall on him. A small bridge gave way, throwing Myers to the ground, some of the ties falling on him. It was necessary to use a jackscrew to extricate the injured man. His recovery is very doubtful.

A committee from the local fire company are soliciting funds for the purchase of 300 feet of hose. It is desired to construct three new reservoirs if funds can be secured and thus make the town secure from fire.

CAUSE OF INSOMNIA.

Indigestion nearly always disturbs the sleep more or less and is often the cause of insomnia. Many cases have been permanently cured by Chamberlain's Stomach and Liver Tablets. For sale by J. R. Mathews' Pharmacy.

POINT ARENA AND VICINITY

POINT ARENA, Sept. 19.—A light rain fell here last week. The precipitation was much heavier down the coast.

Rumor has it that a local company is to be organized to sink another oil well. The Mendocino Oil company will loan their machinery for the project, so it is stated.

Pete Williams is still confined to his home on account of sickness, but hopes to be able to be out soon.

Dr. J. F. Diddle has gone to Boonville to locate for the practice of his profession.

H. A. McCraney and J. J. Duncan are here busy canvassing for their life insurance company.

The Point Arena creamery stood well in the butter contest at the State fair at Sacramento, the score being 95.79, the eighth on the list. The highest score was 97.63. The Bridgeport creamery was tenth place with a score of 95.33 and the Sheppard creamery was seventeenth with a score of 93.08. From this it will be seen that our community is away up in the butter business.

The Empire Redwood company at Gualala expect to start up both sides of the mill soon, as there are plenty of logs in the pond.

NORTH COAST NEWS BUDGET

FORT BRAGG, Sept. 18.—Julia L. Morris and Miss Sadie Simpson were married at Noyo last week by Rev. J. S. Ross.

Miss Florence Piersol has taken charge of the school at Alpine, Miss Lempke returning to her home on account of sickness.

The Glen Blair Redwood Co. have fixed up their lumber yard leading to the wharf, at a cost of over $4000.

Mrs. C. C. Harmon has erected a neat cottage on her lot on the corner of Franklin and Fir streets.

Mike Galvin had his leg broken in the Noyo woods last week. He is in the hospital here.

Our local papers are strongly objecting to the crowds of hoodlums that congregate at the postoffice at mail times. It has certainly become a nuisance and the officers of the law should scatter the young hoodlums.

Ed Mann was crippled in the mill last week by having a scantling fall on his hand. The knuckles were quite badly bruised and it was feared that several bones were broken.

Pete Peterson has a position as bookkeeper for a San Francisco cigar company. Albert is still holding down a good position with Pragers.

The young infant of Mr. and Mrs. C. C. Johnson died at Glen Blair last week.

The bowling lad seems to be gaining in favor among the fair sex. Some good scores have been made.

A REMEDY WITHOUT A PEER

"I find Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used for stomach trouble," says J. P. Klote, of Edina, Mo. For any disorder of the stomach, biliousness or constipation, these tablets are without a peer. For sale by J. R. Mathews' Pharmacy.

Lorrain and Nature.

By the great Italian masters landscape has been used almost entirely as a background for the figures. Claude Lorrain went a step farther, making his figures of comparatively little importance and concentrating his effort upon the ideal or heroic character of the landscape, into which he incorporated the beauty of architecture. He was a close student of nature, sketched and painted in the open air and filled his skies with sunshine. But the use that he made of nature was unnatural.—Charles H. Caffin in St. Nicholas.

He Was Attached to it.

Gilbert had been "exposed" to scarlatina, and, as he seemed listless and feverish, his mother sent for the family doctor.

"Now, my little man," the doctor said pleasantly when he had felt Gilbert's pulse, "let me see your tongue."

Gilbert put out the tip of his tongue.

"No, no," said the doctor; "put it right out—clear out."

Gilbert shook his head feebly, and tears gathered in his eyes.

"I can't get it clear way out, doctor. It's fastened on to me!"

CURED OF LAME BACK AFTER 15 YEARS OF SUFFERING.

"I had been troubled with lame back for fifteen years and I found a complete recovery in the use of Chamberlain's Pain Balm," says John G. Bisher, Gillam, Ind. This liniment is also without an equal for sprains and bruises. It is for sale by J. R. Mathews' Pharmacy.

Smoke and Beauty.

Here is a theory—London smoke is a tonic. Is the sulphur that finds its way via smoky chimneys into the air of London the secret of the London complexion? Over and over again it is remarked how much finer is the town than the country complexion. Put a London girl beside a country girl, and ten chances to one the London girl's complexion is the better.—London Black and White.

ARE YOU ENGAGED?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once and finally made her entirely well. She is now strong and healthy." J. R. Mathews' Pharmacy sells and guarantees them, at 50c a bottle.

A SHOW OF HANDSOME GOWNS DIRECT FROM FIFTH AVENUE

Never before have we had such a successful beginning of a season like we are having now. A show of the swellest line of Ladies' ready made Suits and has ever been seen north of San Francisce at prices that makes the Ladies happy. The number of Suits and Coats we have sold already even surprises us, but not very much.

WHY

Because the garments are made by the best makers of Fifth Avenue, New York, and were bought by one of the most expert buyers in America, and buying them direct from the manufacturer thereby saving the middle man's profits places us in a position to sell them cheaper than any other house could afford to sell garments of even inferior makes.

SPECIAL

Having a buyer in New York now who is taking advantage of all the good things the mills and manufactures have to close nut, we will soon inaugurate a **Special Sale System** which will be held every Saturday and Monday.

WATCH OUR ANNOUNCEMENTS

We have many special lines on the way now from the East.

A. S. Rennick met with a serious accident this week while hauling hay. He was on the load of hay and in some way fell off backwards striking on the back of his head. He was bruised up considerably and is quite sore from the fall.

CURED OF BRIGHT'S DISEASE.

Geo. A. Sherman, Lisbon Red Mills, Lawrence Co., N. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." Sold by E. B. Gibson.

If you contemplate going away from home to study a commercial or other course first ascertain the cost to you of the instruction, the cost of books, stationery and blanks, also what length of time will be required for you to complete the course. The term is generally from eight months to one year. To the cost of instruction, the cost of books, stationery, blanks, etc., add the increased cost of your maintenance for that term, the increased cost of your clothing, the cost of transportation, etc., and from the point where you expect to study, the increased cost of your incidental expenses, and the amount of your wages or earning power for the year you expect to be away from home from this total. Subtract the amount of our terms, cash or installment plan, for the same course of study, and you will find that you can gee the same instruction from the I. C. P. for less than one tenth of what it will cost you elsewhere. Try this and note the results. We furnish all text books free with any of our courses of study. Under our system of instruction you study at home while you are earning your way, continue right along at your present work, put in your spare time at study under our direction and you cannot fail to acquire any line you may direct. LOOK PLEASANT.

Your Employees and Your Business Will Both Be Better For It.

If you are an employer do not go about your place of business as though you thought life were a wretched, miserable grind. Show yourself master of the situation, not its slave. Rise above the petty annoyances which destroy peace and harmony. Make up your mind that you are too large to be overcome by trifles. Resolve that you will be larger than your business, that you will overtop it with your manliness and cheerfulness.

To say nothing of its being your duty to make the lives of those who are helping you to carry on your business as pleasant and as full of sunshine as possible, it is the best possible policy for you to pursue. You know very well that a horse that is prodded and fretted and urged all the time by means of whip and spur and rein will not travel nearly so far without becoming exhausted as one that is urged forward by gentleness and kind treatment. In their susceptibility to kindness men and women are in nowise different from the lower animals. You cannot expect your employees to remain buoyant, cheerful, alert and unwearied under the goad of scowls and the lash of a bitter tongue. Energy is only another name for enthusiasm, and how can you expect those who work for you to be enthusiastic or energetic in your service when surrounded by an atmosphere of despondency and gloom, when they expect a volley of curses and criticism every time you pass?

Many a man who could have been a success sleeps in a failure's grave today because of his gloomy, mean, contemptible disposition and manner. He poisoned the atmosphere about him by venting his spleen, dyspepsia and bile on every one in his vicinity. He not only minimized the value of his own efforts, but he also paralyzed the powers, the initiative, helpful faculties and suggestive ideas of all those who worked for him.—O. S. Marden in Success Magazine.

Buddha's Tooth.

Nearly half a billion people worship a tooth which is supposed to have belonged to the set owned and operated by Buddha. Years ago—in fact, something like twenty-five centuries ago—the molar was alleged to have been rescued from the ashes of the funeral pyre of the god. Its career since that time has been varied. From India the tooth was taken to Ceylon, then it was seized by the Malabars and later by the Portuguese and kept in Goa. Here the revered tooth was burned. As it was a marriage dower with the princes of the royal house, the original relic had to be replaced, so that the molar which rests among gorgeous surroundings and to which a special temple has been dedicated is said to be that of a wild boar or ape.

Satisfaction.

Biquon, the Paris restaurateur, acquired a large fortune, and his wife carried on the business after his death. It is of this time that the story is told of a poor journalist who was seen in the restaurant eating a small plate of strawberries at a season when the fruit was so expensive as to be an extravagance even for the rich. An acquaintance saw the wretched penny a liner and smiled significantly. "Yes," said the journalist, "I know I shall have to pay 10 francs for these, but the sight of that woman at the counter, who is worth two millions, picking over strawberries for me, who haven't got 3 louis in the world, gives me such an amount of satisfaction that the berries are worth it."

Two Sides to the Medal.

Everybody knows the woman who says society is such a bore. Few of us know her intimately, for, in point of fact, she does not go about much. I ran across her at a friend's house the other day and marked her languid air. The hostess was indiscreet enough to refer to it, and even the teacups shuddered with horror at the woman's reply.

"Yes," said she, "paying calls is so tiresome."

"Oh," responded the hostess, "but think how much more tiresome it is to receive them."

And the teacups scored one for the hostess.

The Half and the Quarters.

John Holmes, the youngest brother of Dr. Oliver Wendell Holmes, was also known among his intimates as a man of ready repartee and characteristic humor. Mr. Holmes never married, but lived by himself in a little house. Once a friend rallied him on his lonely life.

"You ought to marry, John," said he, "and have a larger house."

"Why, yes," replied Mr. Holmes, with a quiet smile, "if I should take a better half I would have to improve my quarters."

ARCHITECTURE.

Its Origin Was In the Primitive Abodes of Early Tribes.

The primitive abodes of early tribes have left their impress upon the architecture of more cultured times, for various features of the most elaborate buildings are presaged in the rudest structures. The dome is seen in mound dwellings and in the Eskimo's snow hut, sloping roofs, in tent flies, many storied masonry, in the elevated chambers of cliff dwellers, pillars in natural rock supports in caves, towers in treetop lookouts, spires in tent poles.

An arbor formed by intertwining the branches of adjacent trees would in time be elaborated by the addition of branches severed from other trees and of stakes to help support this augmented roof. Thus would be developed eventually inclosed huts with roofs of thatch, and these by gradual stages would give place to cabins and framed houses.

Similarly a wigwam develops into a tent, and this by the substitution of more substantial material becomes a permanent building.

Cave dwellers naturally enlarge or multiply their abodes by excavating chambers in the mountains. This leads to the use of piers or pillars as need requires to support the roof, and masonry is a logical sequence.

From an unhewn stone, set up to mark a burial place or to commemorate some event, a polished monument is gradually evolved, and a modification of a mere stone heap, or cairn, results in a pyramid or other symmetrical tomb.

A tree trunk fallen across a stream or stepping stones through it were the forerunners of modern bridge architecture.

Verily acorns contain oak trees.—Forward.

Detected.

The Marquis of Waterford once showed remarkable detective skill. A robber who had broken into the marquis' house at Curraghmore, Ireland, was pursued by him and followed to a public house four miles off.

There the robber had seated himself among a number of men, who were drinking and smoking, and not one of them would betray him. The marquis, however, was master of the situation.

He insisted upon feeling all their hearts, and as he was their landlord and the great man of the county not one dared to refuse. The man whose heart was still beating quickly was the robber who had just ceased running.

Chinese English.

The following letter asking for an increase of salary was received by a firm in Shanghai from two Chinese clerks in its employment:

"Dear Sirs—Being respectfully to ask you the pardon for allow us to request you the favor however we understand that you are an intelligent and patronaged us this so long while. Therefore we venture dare not to solicit your assistance for increase a little of our salaries that we can enough to support this family. Recently at Shanghai the house rent and provisions, etc., are double dear between since for few years which compel us to ask you for the favor. Hoping you will kindly enough to grant us this requesting and keep attention for us of this affair."

Why Father Healy Was Glad.

The following story is told by a biographer concerning Father Healy, probably the cleverest Irish wit of modern times:

The priest was once visiting a prominent nouveau riche neighbor, who took him to see his gorgeous and seldom used library.

"There," said the vulgarian, pointing to a table covered with books—"are my best friends."

"Ah," replied Healy, with a quick sidelong glance at the virginal leaves, "I'm glad you don't cut them!"

Feathered Fury.

A more vicious enemy than an angry ostrich cock would be hard to find, for that 400 pounds of sinew and temper backs a kick that can split an inch board with one blow of the powerful front toe, tipped with a nail like the end of a steer's horn. The keepers now and then get a sharp blow for all their care, and a Mexican who thought to take a short cut across the farm through the breeding yards had to go to the hospital for repairs.—Sunset Magazine.

Not Sensitive.

Sophy (who accepted Mr. Charles Fleetwood the night before)—Does Mr. Fleetwood strike you as being a sensitive man, Pauline?

Pauline (who doesn't know of the engagement)—Gracious, no! A man who has been rejected by fourteen girls within six months and gets fat on it cannot be sensitive. Why, Sophy, what's the matter?

She had fainted.—London Telegraph.

The Conductor Scored.

Some time ago several traveling men were sitting together in a car on a train which daily makes a round trip over a certain division of the Boston and Maine railroad. One of the number, the Boston Herald says, had not only monopolized the conversation, but from time to time had poked fun at the quiet conductor.

As the train approached the Haverhill station the traveling man turned to the conductor, who stood near by, and shouted boisterously:

"Say, George, what made them locate the station so far away from the village?"

"I don't know," the conductor gravely replied, "unless they thought it would be more convenient to have it down here near the railroad."

THREE JURORS CURED

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale by J. R. Mathews' Pharmacy.

A Venomous Tongue.

There was a certain Oxford don who had a reputation for a venomous tongue. He appeared in common room one day with his hand bound up.

"What has happened to X.?" asked one of his colleagues.

"He has been trying to hold his tongue," was the ready response

GIVEN UP TO DIE.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured."—Sold by E. B. Gibson.

Aged, but Not Respected.

There used to live in Lynn, Mass., a well known wit named Darius Barry. One day he was in a grocery store, where they had recently purchased a new lot of butter. The grocer said, "Darius, take home some of that butter and see how you like it," which he did. A few days afterward he was in the store again, when the grocer said, "Darius, how did you like that butter?"

"Well," said Darius, "when I'm as old as that butter I hope I shall be as strong."

The Press' Mare's Nest

Our esteemed contemporary, The Press, has discovered another mare's nest. It discovered one some time ago, as it thot, and assailed Supervisor Gibson maliciously. But like the fellow that caught a wild cat, he had to get some one to help him let it go.

The editor of the Press thinks THE DISPATCH is charging an exorbitant price for printing and tries to make a comparison with San Francisco prices. We don't know where he got his figures, but we do know that the fight among the city job printers has been so long and bitter that they frequently take big jobs at starvation prices to keep others from getting a reasonable price. *We also know that it is an easy thing to quote a low price on a job that one knows he is not going to get.* There were no rates fixed by the board of supervisors on the warrant books printed by THE DISPATCH, but the printing committee, appointed by the board of supervisors, in their report to the board recommended a rate of three dollars per book. This was done months before THE DISPATCH printed the books. THE DISPATCH did just what any one else would have done—put in a bill at the recommended rate. The printing committee appointed by the board consisted of Clerk McCowen, Auditor Caughey, and District Attorney Duncan, and these gentlemen never knew who was to get this particular job of printing. We notice one thing, however, that the Press is not saying that the price is too high for any printing that it happens to get. The intended attack on THE DISPATCH is really an attack upon these honorable gentlemen and is so considered by them, so Mr. White has stirred up a hornet's nest in impugning their motives. The board of supervisors, however, have not adopted the new rate schedule. THE DISPATCH believes them to be honest, upright and fair, and whatever rate is fixed THE DISPATCH will continue to do such printing as falls its way at the rate established by the board. We think the board of supervisors, Clerk McCowen, Auditor Caughey, District Attorney Duncan and Treasurer Rea can perform their duties without the assistance of the watchful eye of the Press. All bills presented must go thru their hands and the people have more confidence in them than they have in the disgruntled Press.

News and Comment

ACCORDING to the Kansas City Journal, a Republican paper, the trusts have devised a new means of handicapping any fight which Mr. Roosevelt may be inclined to make against criminal combinations of capital. In the language of the Journal "the trusts are stealing Roosevelt's best men." That newspaper says: "As soon as the chief executive finds an official who has the ability and courage to get the necessary information concerning the trusts, and to press for redress in the courts, or wherever else the fight is to be made, the captains of industry do not make the mistake of opposing the new man. Instead, they convert him from a foe into a friend—better still, they gain him for a hireling. Thus the government service loses a good man, the trusts gain one, and the battle is postponed and made more difficult."

* * *

THE JOURNAL names former Attorney-General Knox, who thru trust influence was made United States senator; James M. Beck, who as assistant attorney-general, displayed considerable ability in the prosecution of trusts and was given a place as special counsel for an insurance company with a salary of $25,000 a year; William A. Day, who, as assistant attorney-general, figured conspicuously in the Northern Securities case and the beef trust cases, and was given a $30,000 a year position with the Equitable; Robert B. Armstrong, assistant secretary of the treasury, who, in the language of the Kansas City Journal "fought the tobacco trust to a standstill on the question of its importation" and was made president of the Casualty Company of America.

* * *

THE trans-continental railroads mean to fight the canal project to the bitter end, and so Engineer Wallace suddenly received an offer of a munificent salary. The Journal says: "Wallace could not resist the temptation, and the work of building the canal must be undertaken by a less able man." The Journal says that Paul Morton knew altogether too much about rebates, and so he was given a position in the Equitable. The Journal asks: "Where will President Roosevelt find men to stand by him in the battle for the people when the trusts are so eagerly baiting his assistants with enormous salaries?" The Journal has probably overlooked Mr. Bristow, who, as fourth assistant postmaster-general, and later as a special commissioner to investigate corporation imposition at Panama, performed great service to the people. We are told that Mr. Bristow will retire. It has doubtless occurred to many people as strange that at this time when faithful men appear to be so greatly in demand Mr. Bristow is not retained in the public service.

* * *

REPUBLICANS have been very busy of late appropriating Democratic doctrines. President Roosevelt endorses the Democratic doctrine of railroad rate legislation; Governor LaFollette endorses rate legislation and also the Democratic doctrine of primary elections; Governor Cummins endorses the Democratic doctrine of tariff revision; Editor Rosewater endorses the Democratic doctrine of election of Senators by popular vote—

POULTRY RAISING is the largest industry of the United States. The value of the poultry and egg output per year is $280,000,000; gold, silver, [illegible] and wool, $272,434,315; cotton, $259,161,640; wheat, $229,000,000; hogs, $186,529,035; oats, $78,984,900; potatoes, $75,000,000; [illegible] $85,579,225.

THE people of Los Angeles have voted for the municipal ownership of a [illegible] water supply. The water is to be impounded in the high [illegible] 250 miles distant and will cost something like $23,000,000. It is [illegible] that the water supply will be sufficient for 2,000,000 people. [illegible] proposition carried by a vote of 10,693 for and 754 against.

The Folk Boom Started

The Presidential boom of Governor Folk, of Missouri, was started last week when the Governor and his staff left St. Louis for the Portland exposition. The trip thus marks the beginning of the Folk campaign for the Democratic nomination. He expects the strongest support from the West and it is out this way he will make his first talk. His generals and colonels will spread the talk among the politicians they meet and the press agent will see that the newspapers get full accounts of the Governor's doings.

He proposes to start out right on the railway question, for, including himself, every man on the special car must pay his fare. This was a condition imposed by the Governor on his staff in permitting them to accompany him.

The popular goverdor was given a great ovation in San Francisco by the people of all parties. He made a grand speech at his reception and created a favorable impression. At Sacramento he met District Attorney Seymour and complimented him upon his fight against organized corruption and encouraged him to go to the bottom of legislative bribery. This Seymour will do to the utmost of his ability.

As Others See It

The Willits Herald in discussing the article in W. O. White's Press last week about printing bills says:

"The people, however, are fortunate in not permitting the organ of the Duncan push (The Press) to slip its fingers into the county strong box. There would be no danger of a surplus in that event. The latter paper in yesterday's issue prints a double-column artice about the graft, but it apparently fails to remember that the people have not yet forgotten how it got in its work on an $1100 steal a year ago. In referring to the bills in question the moribund organ says that "it" will watch the county bills "in future" (all but its own), and will keep the taxpayers posted. It should have commenced its supervision a year or so ago."

Who Does He Mean?

Watch for the man or newspaper that is always shouting "grafter" at his neighbors. Some of the shouters have been known to do a little grafting on their own account, and, like sleight-of-hand men, they do the trick while you are watching the other fellow.—Willits News.

Grammar School Attendance

Principal Flowers has handed in the following figures showing the attendance at the grammar school: First grade 52; 2nd grade 48; 3d grade 47; 4th grade 56; 5th grade 48; 6th grade 38; 7th grade 50; 8th grade 26. Total 365.

Last year the highest enrollment was 412, and Mr. Flowers expects that figure will be exceeded when the tardy arrivals begin to enroll. He has a large and enthusiastic class in the manual training department, many of whom are girls.

Diphtheria in Town

According to the health officers there are several cases of diphtheria in town. Great care has been taken to prevent the spread of the disease and the houses have been quarantined. The cases are yielding readily to treatment, so the people need not be unduly alarmed. The rumor to the effect that one child had died was not true. The child is getting along nicely.

Receives Flattering Offer

We were shown a letter this week to Principal Mathews, of the business college, from a prominent Illinois business college offering him the position of the head of the banking and actual business department at $1500 per year. The college is capitalized at $100,000. Mr. Mathews very promptly decided he would remain with Ukiah, however.

PURPOSES TAPPING NORTHERN COUNTRY

Another railway company having in view the tapping of the rich coast district lying north of San Francisco bay filed articles of incorporation yesterday. It has taken as its name the Clear Lake and Southern Railroad company. It is stated that its purpose is to run a ferry from this city to a point on the northerly line of San Francisco and San Pablo bays to connect with a railway to run north thru Marin, Sonoma, Napa and Lake counties, a distance of 130 miles, with branches from San Quentin to San Rafael and from Reclamation to Petaluma, the total length of the road to be laid being 142 miles.

The company is capitalized at $3,500,000, of which $142,000 has been subscribed. The directors are Joseph P. Lucey, W. E. Cashman, Guy C. Calden, William T. Love and Kent J. C. Seymour. Cashman has subscribed $141,600 and the other directors $100 each.

The General Electric company of California has also been incorporated by the same directors. The capital stock of this company is $1,000,000, of which Calden has subscribed $100,000 and the other directors $1000 each.—S. F. Call, Sept. 20.

Weller "Not Guilty"

The trial of Jim Weller, the Stanford athlete, who was charged with having a spotted fawn in his possession, took place in Judge Crockett's court last Tuesday before a jury. A great many witnesses from the Eel River Power Co.'s plant were present. About five of them testified that the deer was a spotted fawn and about five others testified that the deer was a spike with horns six inches long and weighed from 50 to 75 pounds. District Attorney Duncan being absent, the people were ably represented by J. W. Preston. Weldon & Held looked after the interests of the defendant. After a few minutes consultation the jury brot in a verdict of not guilty.
